Seeking a Job Opportunity for Web Development(Full Stack)

Education

2010–2014	**East China University of Science and Technology - Materials Physics Major**.
	QS world university rankings: 476
	GPA:3.1/4.0
	Scholarship in 2012
2015–2017	**The University of Adelaide - Master of computing and innovation Major**.
	QS world university rankings: 109
	GPA:5.7/7.0

Project experience

February–June 2017 — **Design the web site about topic model**, *Job: Full stack engineer*.
Optimizing the Gibbs sampling LDA topic model algorithm and web site establishment. I was responsible for writing the front end codes and the back end algorithms. The back end algorithms was about gathering data from a news aggregator by API and LDA topic model algorithm.

March–July 2017 — **Robot project**, *Job: Project Manager*.
This project was about to let a robot complete a series of tasks according to requirement. I was responsible for project managerment. My job was to guarantee the project can be completed in every milestone. I had to manage the team meeting and distribute tasks for everyone. When some problems appeared, I also needed to discuss problems with team members and deliver solutions. Furthermore, I also was responsible for writing interfaces for this project, which disigns the basic structure of the software.
